THE AIR PRESSURE IN WHICH WE LIVE. ✓

Physical experiments which reveal the great pressure of the atmosphere which surrounds us. Atmospheric pressure crumples a tin can in which a vacuum is created; an egg forced through the neck of a bottle by air pressure.

This document is from the Library of Congress
“Motion Picture Copyright Descriptions Collection,
1912-1977”

Collections Summary:

The Motion Picture Copyright Descriptions Collection, Class L and Class M, consists of forms, abstracts, plot summaries, dialogue and continuity scripts, press kits, publicity and other material, submitted for the purpose of enabling descriptive cataloging for motion picture photoplays registered with the United States Copyright Office under Class L and Class M from 1912-1977.
